

A milestone in skin compatibility - the emulsifier-free myrto Organic Day Cream

Premium natural cosmetics with long-term care effect

Bergisch Gladbach – myrto-naturalcosmetics is now offering Emulsifier-free Face Care products for sensitive and dry, mature skin. This consists of the Emulsifier-free face cream ORGANIC JOJOBA DAY CREAM S (sensitive skin) and ORGANIC ARGAN DAY CREAM T (dry skin) for the day with the matching ORGANIC FACE OIL NIGHT S and T for the night. In addition, there is the Cleansing Cream available of the Jojoba and Argan series.

The two cytoprotective myrto face creams come without the usual Emulsifiers. The new plant fiber concept with the active ingredient Beta Glucan strengthens sustainably the protective barrier of the skin and prevents loss of moisture and the penetration of contaminants through the skin. A detailed view of the emulsifier-free concept is available under <http://www.myrto-naturalcosmetics.de/shop/en/news/our-emulsifier-free-concept-the-best-for-your-skin>

The facial creams are made from the highest quality ingredients and are skin tolerance optimized. In this case, the use of essential oils is dispensed and it is used genuine organic vanilla oil from allergen-free CO2 extraction.

The myrto-natural cosmetics MANUFACTORY was founded in 2012 in Bergisch Gladbach and offers hair, body and face care products in organic premium quality: Organic Hair Shampoos and Conditioner , Organic Hair and Scalp Treatments, Organic Finisher Sprays, Organic Deodorants without aluminium salts, Organic Body Wash and Emulsifier-free Cleansing Creams, Emulsifier-free Organic Face Creams for the day and Organic Face Oils for the night.
