

**Press report of March 1st, 2016**

myrto-naturalcosmetics manufactory | Premium organics with longtime effectiveness

## **Vegan organic cosmetics – our two newcomers**

myrto-naturalcosmetics manufactory has supplemented her vegan assortment with 2 new body and face care products.

### **Bio Beauty Face Mask**

The first newcomer is our regenerating Beauty Face Mask. It is the crowning final extra care for sensitive and dehydrated skin. The organic facial mask contains a high proportion of cell protective seed oils of grape seed, evening primrose, almond and avocado. Additional acai berries as power fruit are full of antioxidants and vitamins, effectively fighting dull, tired skin. Beta-glucan from oats provides long-lasting moisture and strengthens the skin's natural immune defenses. The result is a gently clarified and well supplied skin with radiant complexion. Small wrinkles are gently alleviated.

### **Bio Body Lotion Argan Palmarosa**

The second newcomer is the vegan Body Lotion Argan Palmarosa. Hand-pressed argan oil, almond oil and shea butter - all from organic farming - leave a well-supplied, supple skin. The gently firming, creamy lotion promotes cell regeneration and strengthens the skin barrier. Rich in natural antioxidants, the active ingredient composition forms a delicate protective, breathable film on the skin. Moroccan myrtle, Sicilian lemon oil and Indian Palmarosa stimulate the lymphatic detox flow and support to tighten the tissue. Together with our Bio Body Wash Pink Palmarosa the new body lotion is the perfect care duo combination for a pampering spa shower.

For optimized skin compatibility of our new products go – as usual with myrto - without conventional emulsifiers, preservatives, alcohol and other ingredients that might irritate sensitive skin.

### About myrto-naturalcosmetics

myrto-naturalcosmetics manufactory was founded in 2012 in Bergisch Gladbach and offers natural cosmetics in premium quality. All plant oils and herbal extracts are from organic farming or sustainable wild collection, mostly vegan and often from fair trade projects. We develop and manufacture selected organic products for hair, body and face

care: Organic shampoos and conditioners, hair and scalp treatments, finisher sprays, deodorants, a series of body wash, body oils as well as emulsifier-free cleansing creams, facial creams and facial oils.
